The Story of Wei East

Here is the secret to the ageless beauty of Chinese women: herbal solutions that nourish and support skin, delaying or even reversing the signs of age while brightening and smoothing the complexion. Dozens of hand-selected, gently powerful herbs are combined in formulas perfected over centuries to help normal, oily, or combination skin achieve its own energetic balance. Leaves skin feeling lush, soft and supple. Healthy, balancing.

Exfoliate & Renew

Rejuvenate the look and feel of your skin with this gentle exfoliating bar soap from OUT OF AFRICA made with real apricot kernels. Skin becomes soft, glowing and youthful looking after sloughing away the dry, flaky layer of dead skin cells and revealing new radiant, polished looking skin.

20% of the bar soap is unprocessed shea butter that provides a blanket of moisture along with healing benefits for your skin – significantly more than traditional bar soaps that typically have 1-2% processed shea butter.

These other bar soaps are more like a detergent that strips your skin of moisture while the Out of Africa bar soaps feel like a

cream and replenish your skin with vast amounts of moisture and antioxidant vitamins A, C & E.

The shea butter soaps from Out of Africa also last far longer than traditional bar soaps, which helps

you save money while keeping your skin looking and feeling beautiful. Additional bar soaps are available in Vanilla, Lavender,

African Black, Verbena, Complexion for face, Unscented for Baby and a Green Clay for detoxifying your skin. Try them all!
